SUMMARY

Aspiring Java Full Stack Developer with a strong foundation in Java, Object-Oriented Programming, SQL, HTML, CSS, and JavaScript. Hands-on experience developing Java applications, REST-based solutions, and web applications through internships and academic projects. Passionate about designing scalable software solutions, learning modern Java technologies, and contributing to high-quality software development teams.

EDUCATION

Bachelor of Engineering in Information Science and Engineering

2022-2026

HKBK College of Engineering (HKBKCE)

SKILLS

- Programming Languages: Java, SQL, Python (Basic)
- Frontend: HTML5, CSS3, JavaScript, React.js (Basic)
- Backend: Core Java, JDBC, REST APIs
- Database: MySQL, MongoDB
- Core Concepts: OOP, Exception Handling, Collections (Basics), Data Structures (Basics)
- Tools & Platforms: Git, GitHub, VS Code, Eclipse, MySQL Workbench, Streamlit

EXPERIENCE

Java Full Stack Intern | KodNest

April 2026 – Present

- Hands-on training in Java Full Stack Development, including Core Java, OOP, Collections, and Exception Handling.
- Practicing Java programming, problem-solving, SQL, and MySQL through coding assignments.
- Building frontend development skills in HTML, CSS, and JavaScript through assignments and technical practice.

Python Developer | Infosys

Sep 2025 – Dec 2025

- Developed backend automation modules using Object-Oriented Programming concepts.
- Worked with REST APIs and reusable backend components.
- Collaborated with development teams to build scalable software solutions

PROJECTS

Employee Management System (*Java, JDBC, MySQL*)

- Developed a console-based Employee Management System using Java and Object-Oriented Programming principles.
- Implemented CRUD operations (Create, Read, Update, Delete) using JDBC with MySQL database connectivity.
- Applied encapsulation, constructors, modular programming, and exception handling for better maintainability.
- Validated user inputs and managed employee records efficiently through a menu-driven interface.

Virtual Campus Guide (*REST APIs, Service-Oriented Architecture*)

- Developed a Service-Oriented Architecture (SOA)-based application for academic campus navigation
- Designed RESTful backend services to provide department, facility, and event information.
- Built a modular architecture to support future web and mobile application integration.

CERTIFICATIONS

- NPTEL – Programming in Java, Data Science for Engineers
- Infosys Springboard – Machine Learning Foundation, Data Science Foundation, Artificial Intelligence Foundation
